Quiz 5

Section 'C'

Q write a programme that take string as an input from user and display # of consonant in the string using function for counting.

```
#include <iostream>
```

```
#include <stdio.h>
```

```
using namespace std;
```

```
void pass-arry (char str[100]);
```

```
{
```

```
    gets (str);
```

```
}
```

```
int counter (char stringe[100]);
```

```
{
```

```
    int count=0; int v_count=0;
    for (int i=0; stringe[i]!=0; i++)
```

```
{
```

```
        if ( 'a'==stringe[i] || 'i'==stringe[i] ||
```

```
            'o'==stringe[i] || 'e'==stringe[i]
```

```
            || 'u'==stringe[i] )
```

```
            v_count++;
```

```
        else
```

```
            count++;
```

```
}
```

```
    return count;
```

```
}
```

```
int main ()
```

```
{
```

```
    char input[100];
```

```
pass-arry (input);  
int x = counter(input);  
cout << "number of consonent is:" << x;  
return 0;
```

```
}
```
